## Who we are at Enchantmints:

We believe that children require gentleness and warmth to find their path in life. By creating playthings of beauty, truth and goodness, we devote ourselves to children so they may walk into the future with kindness and confidence. At Enchantmints we focus on nurturing the inner lives of children — for it's certain that these inner/imaginative lives really matter to us all.

Enchantmints provides refreshing alternatives to the often harsh toys of the mass market. Great care is taken with each product, from concept and construction to shape and color selection (adults can handle hard forms and intense colors; we think children need the shapes and colors of Monet, Raphael or Fra Angelico). We believe every impression that enters a young child's heart and mind remains for a lifetime. We take our designs seriously.

The Enchantmints team is comprised of an exceptional group, including artists Denise Marshall, Hsin-Shih Lai, Caron Dunn and Maria Sander, and product development department Rob Flanders, Art Lockwood and a doctor of psychology, Dr. George Lockwood. To bring ideas to commercial application, we rely upon our superb engineers and craftsmen. For graphic and online design, we look to the talent and technical expertise of our print and web designers, led by Howard Besserman. Our wordsmith, Kathy Magid provides lyrical language. Dynamic industry veteran Bob Soriano leads our sales representatives, and our dedicated office crew Anna Marie, Carole, Chandra, Marisha, Larry, Barbara-Sophia and Eowyn supply expert organizational support. Our founder and president Marke Levene furnishes the abundant spark and soul.

Enchantmints has received many prestigious awards, most recently Creative Child Magazine's 2007 Toy of the Year Award for the Ballet School Treasure Box (find it on page 14) and a 2007 Seal of Excellence Award for the Horse Ranch Treasure Box (find it on page 8).

We hold true to our mission to surround children with beauty, truth and goodness. This task gives us the enthusiasm to greet each day and brings joy, meaning and heart to our work.

## Play Ball!

Here's the pitch: This theme is in a league of its own. With a wink to nostalgia, the field is warm and green under a summer sky, the players poised, the hungry fans more than ready for the crack of the bat and the long drive to center. It's a world of possibilities where every day is Opening Day.
